

Jobs in your field

In groups, discuss which jobs in your field would fall into these categories. Think of any potential job that would be open to a person with a degree in your field. Each group should think of several jobs for each category.

Which jobs would be ...

- most lucrative
- most challenging
- most interesting
- most fun
- easiest / least stressful
- most rewarding / satisfying
- most likely / easiest to get*

*(i.e., jobs that would be easy to find, for which it would be easy to be hired)
